Grady-White has masterfully redesigned the company's walkaround cabin model Marlin 300 for 2004. The result is all new detailing from the tip of the bow pulpit to the back of the completely reconfigured transom, and from the cockpit seating and helm and companion areas down into the roomy and handsome cabin. The Marlin, like the Express 330, now has a handsome teak and holly cabin sole. And like the 330, there is a very nice, sturdy teak dining table. In the 300, the teak table stows away conveniently allowing more room for the comfortable vee berth, which is surrounded by a teak storage rack. The galley's cabinet top sports a durable Corian cutting board. The board lifts away to reveal a roomy cooking surface. A refrigerator and microwave complement the other cooking appliances. The enclosed head finishes the cabin and it is plenty tall enough for growing teens to shower in comfort. Up on deck, starting at the bow, the newly designed bow pulpit is easier to use.
